FL501

This inwall speaker is flatter and even more invisible than any of its predecessors. The frame has been reduced down to 1 millimetre, but still scores high when it comes to vibration absorption the frame thickness more than halved. The grille of the loudspeaker has been noticeably fine-tuned and it feels like silk to the touch. The sound is accurate, warm and carries far. A no-bones-about-it speaker.

One of the most popular speakers thanks to the power of the sound and the modest mounting dimensions.
