

Flexi Wave Ultra

PROFESSIONAL AUDIO / HI-FI & HOME CINEMA / PUBLIC SPACES

Description

The revolutionary Flexi Wave acoustic panel brings performance and design to our homes. This hybrid acoustic panel acts as an absorber and diffuser simultaneously. Very easy to install, it hooks on to the existing frames but can also be glued directly to flat surfaced ceilings.

The acoustic vicPET Wool can be removed for cleaning or replaced with a different color. The Flexi Wave is the ideal product to improve the acoustics and decor of your home cinema and hi-fi room.

This acoustic panel is ideal for residential installations, cinemas, restaurants, or on its own, as a decorative piece. The frame is made of premium MDF and high quality High-Pressure Laminate (HPL).

Vicoustic Flexi Wave is available in two versions – the full size 4 foot panel (1200 mm) and the smaller 2 foot panel (600 mm, half a Flexi Wave). Interesting designs can be developed when both versions are combined.

Features

- 1) Acoustic absorption and diffusion on a single panel
- 2) Polyurethane and VOCs free
- 3) High quality MDF with anti-scratch HPL
- 4) PET absorption inside
- 5) Professional fixation system
- 6) Customizable side

Performance

NRC = 0.7
